LICENSED NURSERY.

This list contains PREPAID prices and short reliable description of varieties which have been proven satisfactory. We have a large quantity of some varieties, while others are limited. If you compare our prices with other bulb and seed catalogs you will find them low enough to move this stock rapidly. SO ORDER EARLY to be sure of obtaining the varieties you desire. Large illustrated catalogs and advertising from coast to coast are expensive. One can readily see that our overhead is much lower and we can therefore sell our stock at much lower prices. We grow many glads not listed here. If you do not find in this list what you want, we may have it in small quantities, or can obtain for you at a reasonable price.

TRUE TO NAME; HEALTHY YOUNG BULBS;
INSPECTED AND LICENSED FOR SALE BY THE NORTH DAKOTA
STATE NURSERY INSPECTOR.

Trade sizes of bulbs:	Standard trade practice is to list as follows:
No. 1, $1\frac{1}{8}$ inch or more;	Nos. 1 and 2 are large bulbs;
2, $1\frac{1}{4}$ to $1\frac{1}{2}$	3 and 4 are medium, and
3, 1 to $1\frac{1}{4}$	5 and 6 are small.
4, $\frac{3}{4}$ to 1	Our bulbs are graded accordingly, except that we do not ship
5, $\frac{1}{2}$ to $\frac{3}{4}$	any No. 6s with the small size. If you wish No. 6 bulbs, you
6, $\frac{1}{4}$ to $\frac{1}{2}$	should pay only what they are worth. We can quote prices on
	No. 6 of many varieties if you wish them. The largest bulbs

of the grade ordered, which we have on hand, are shipped. Large bulbs are generally planted for exhibition spike growing. Medium are usually bought by the commercial cut-flower growers, and with most varieties will give very nearly, if not as good a spike as the large size; and are at a very considerable saving. No. 5 small bulbs of most kinds give fair bloom and make fine bulbs for next year, and yield the most bulb-lets; but bloom a little later than the medium and large. Days-to-bloom stated are approximate and for comparison only. 70 days is a very early glad, and over 105 days is late for this region.

TERMS: Cash With Order, Please. NO SINGLE ITEM LESS THAN TEN CENTS, OR ORDER LESS THAN ONE DOLLAR. Remittance by personal check accepted, but Post Office or Express Money Orders preferred, and Money Order fee allowed for in extra bulbs. NOT RESPONSIBLE FOR CURRENCY IN UNREGISTERED LETTER.

All stock offered and orders accepted subject to prior sale. 5 BULBS at 10 RATE, 25 at 100 RATE. Our prices are so low that we do not quote any confusing discounts, but you are assured a generous count and extras on all orders. This takes care of the discounts which some dealers allow. The larger the order, the more extras.

NO SUBSTITUTION OF VARIETIES WITHOUT PERMISSION.

Orders shipped PREPAID about March 30th, or when weather permits. Orders of \$5.00 or more may be shipped by express prepaid whenever purchaser desires, as express is insured against freezing. Parcel Post is not safe in cold weather as it cannot be insured against freezing.

While I recommend planting only named varieties and each kind labeled, I list some mixed collections, because many people are not interested in the named varieties but only in having an assortment of colors for cut flowers. These collections, numbered 1, 2, 3 and 4 come UNLABELED. Will consist of 30 or more varieties, all put up in one package. NO TRASH! These would cost you much more if put up in individually labeled packages. Order collections by number; all prepaid.
